# Giles Coren reviews Onima, London W1

GILES COREN

'Russians won't eat a Sicilian prawn starter unless it's at least £36, or a burger unless it's £32. But luckily, at Onima, they are'

**T**he reason I was bound to like Onima, someone involved with the place told me when it opened, was that it “brings the spirit of Mykonos to London”.

Now, I didn't really know what that meant. Obviously, Mykonos is a place in Greece. You can see that by looking at it. But it isn't famous for any major role it played in antiquity, because if it were, I would know. So it must, I reasoned, be a popular holiday destination. Except I have been on holiday all over Greece and I have never been there. So it can't be very quiet or pretty or interesting, or I would have.
